

Hetton Town Council

Town Council seeks views on park improvements

Hetton Town Council is taking the lead in developing plans for the future of Hetton Mini Park and now seeks users view.

Initial suggestions from Town Councillors include improvements to lighting and landscaping; better site access and repairs to the war memorial.

Residents are now invited to let the Town Council know of any improvements they would like to see.

Cllr Richard Elvin, Chairman of the Council's Management & Policy Committee said "The mini park is a key feature in the town centre but is not fully utilised by the community. The Town Council would like to see it become more attractive to encourage greater use and is eager to hear local views."

Local residents should contact Graeme Keedy, Town Clerk with their ideas and suggestions by 6 November. He can be contacted by phone on 0191 561 6600 or via email: townclerk@hettontowncouncil.gov.uk.

All suggestions will be considered by the Town Council and a proposal then made to Sunderland City Council with a view to working jointly to bring plans to fruition.
